## SPOTLIGHT:

### PROXUS Success Story - Alzheimer's Association

#### **SITUATION:**

The finance director of the [Alzheimer's Association Delaware Valley Chapter](#) found that she spent an inordinate amount of time on payroll, human resources and employee benefit issues instead of her CORE responsibility of managing the financial matters for this dynamic non-profit organization.

#### **SOLUTION:**

With over 35 employees in three states, coupled with mounting administrative burdens and the need for even more expertise in the areas of regulatory compliance, corrective action and workplace policy matters, she decided to partner with [PROXUS](#).

#### **RESULTS:**

PROXUS enhanced their benefits plan offerings and implemented a user-friendly, web-based payroll and time-keeping system, resulting in more efficient processes and controls for benefits and HR administration.

***"It is hard to believe that it's been two years since the Alzheimer's Association Delaware Valley Chapter has used the HR, payroll and benefit services offered by PROXUS - two excellent years that have greatly benefited our employees and management staff."***

Wendy Campbell, President  
Alzheimer's Association Delaware Valley Chapter
